INTRODUCTORY GEOGRAPHY IN READINGS AND RECITATIONS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Introductory Geography in Readings and Recitations This book forms an introduction to the author s Grammar School Geography, and the two books furnish a complete course of geographical study for common schools. The plan of this Introductory is similar to that which has met wide approval in the author s Elementary, or Brief Course; that is, it combines reading-lessons (to enliven and stimulate) with recitation-lessons (to emphasize and fasten). By its moderate size, simple style, and close relation of matter read to matter recited, it is suited to the capacity of beginners, while the text is so graded that the Introductory connects with the Grammar School Geography without the need of any intermediate manual. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
